

Benchmark Regionalbanken

Pfäffikon SZ, Juni 2026

Regionalbankenvergleich von in der Schweiz
hauptsächlich im Kreditbereich tätigen Banken der
FINMA-Kategorien 4 und 5 für das Geschäftsjahr 2025

Von Franco A. Straub / Stephan Schmidli

Pfäffikon SZ, Juni 2026

Regionalbankenvergleich für das Geschäftsjahr 2025

Sehr geehrte Damen und Herren

Wir freuen uns, Ihnen die Regionalbanken-Studie 2026 präsentieren zu dürfen. Wie in den Vorjahren fokussieren wir auf wichtige Kennzahlen, die einen direkten Einfluss auf das Kreditgeschäft und die Erfolgsrechnung der Banken haben.

Unser Regionalbankenvergleich umfasst sämtliche in der Schweiz tätigen Banken der FINMA-Aufsichtskategorien 4 und 5 und primärer Fokussierung auf den Kreditbereich. Nicht in den Vergleich aufgenommen wurden Zweigniederlassungen von ausländischen Banken und Institute mit einem vergleichsweise grossen Kommissionsgeschäft.

Sämtliche in der Studie verwendeten Basisdaten haben wir den publizierten Geschäftsberichten per 31. Dezember 2025 entnommen. Um einen effektiven Vergleich unter den Banken sicherzustellen, haben wir die Kennzahlen anhand einheitlicher Formeln berechnet, womit diese von den in den Geschäftsberichten ausgewiesenen Kennzahlen abweichen können. Zur besseren Verständlichkeit haben wir für Sie die Kennzahlen nachfolgend definiert.

Wir wünschen Ihnen interessante Erkenntnisse aus unserer Studie und stehen Ihnen für Rückfragen jederzeit gerne zur Verfügung.

Freundliche Grüsse

SWA Swiss Auditors AG

Franco A. Straub

Vorsitzender der Geschäftsleitung

Stephan Schmidli

Mitglied der Geschäftsleitung

Kommentare zu den Kennzahlen

Kennzahl	Kommentar
Bruttozinsmarge	Brutto-Erfolg Zinsengeschäft + Kommissionsertrag Zinsengeschäft in % der durchschnittlichen Bilanzsumme
Kundengelder in % der Kundenausleihungen	(Verpflichtungen gegenüber Kunden + Kassenobligationen) / (Forderungen gegenüber Kunden + Hypothekarforderungen) Pfandbriefdarlehen sind nicht als Kundengelder berücksichtigt
Eigenkapitalquote	Eigenkapital per 31.12.2025 in % der Bilanzsumme
Cost / Income Ratio	Geschäftsaufwand / Geschäftsertrag
Revisionshonorar / Kreditportefeuille	Revisionshonorar (3-Jahresdurchschnitt) in ‰ des Kreditportefeuilles
Eigenkapitalrendite	Reingewinn / durchschnittliches Eigenkapital gemäss Eigenkapitalnachweis
Geschäftsertrag	Netto-Erfolg aus Zinsengeschäft + Kommissionsgeschäft + Handelserfolg + Übriger ordentlicher Erfolg
Informationstechnologie	Aufwand für Informations- und Kommunikationstechnik aus dem Anhang Sachaufwand
Rückstellungen / Kundenforderungen	Wertberichtigungen für Ausfall- und Länderrisiken / Total Ausleihungen (vor Verrechnungen mit den Wertberichtigungen)
Mittel	Arithmetisches Mittel (Durchschnitt)

Für die Berechnung der Kennzahlen verwendeten wir die im Geschäftsbericht ausgewiesenen Zahlen ohne Berücksichtigung allfälliger Veränderungen von stillen Reserven oder Reserven für allgemeine Bankrisiken (keine betriebswirtschaftliche Betrachtungsweise).

Erklärung Kastendiagramm

Das Kastendiagramm zeigt die Verteilung von Daten in Quartilen, wobei Mittelwerte und Ausreisser hervorgehoben werden. Der Kasten spannt sich vom 25%-Quantil bis zum 75%-Quantil auf. In ihm ist der Median durch einen Querstrich markiert. Der Kasten entspricht dem Bereich, in dem die mittleren 50% der Daten liegen. Das Kreuz innerhalb des Kastens zeigt den Durchschnittswert (Arithmetisches Mittel).

Die Streuung ausserhalb der Quartile wird als vertikale Linie oberhalb und unterhalb des Kastens dargestellt. Werte die ausserhalb der 1.5-fachen Kastenlänge (Interquartilsabstand) liegen, werden als Ausreisser gekennzeichnet.

Liste der in der Studie berücksichtigten Bankinstitute in alphabetischer Reihenfolge

acrevis Bank AG	Clientis Bank Thur Genossenschaft
AEK BANK 1826 Genossenschaft	Clientis Bank Toggenburg AG
